Walks, retired, hair, face, love, healthy, wears, betel, tells, evening

(1x9 marks)

Test – 10

Read the following text and answer the following questions.

The environment is the surrounding around us. Water, air, trees, land and beings are the parts of the environment.

Today environmental pollution has become a major problem. People pollute the water by mixing poisonous chemicals and waste matter. Air is polluted by mixing smoke and poisonous gases released through the chimneys of large factories. Land is polluted by collecting garbage.

People cut down trees in careless manner. They never think of the bad effects of it. We get the most needed rain because of the trees. Trees help not only to the man but also to the animals. Birds builds their nests on trees. Trees stop the soil erosion too.

1. What are the parts of the environment?

.....

2. How is the water polluted?

.....

3. How is the air polluted?

.....

4. Write two uses of trees.

1.

2.

5. Write the similar words from the text.
