### Test 15

Read the text and answer the questions.

Tom was rather looking forward to his first journey by Tube, as the underground railway in London is called. He had heard a great deal about it from his friends who had already been to England. They all advised him not to travel alone the first time. But Tom is the kind of person who never listens to anyone's advice. It is not surprising, therefore, that his first journey by tube was not a great success.

Tom entered the station shortly after five o'clock in the afternoon. This is a bad time to travel in London, both by bus and train, because crowds of people go home from work at this hour. He had to join a long queue of people who were waiting for tickets. When at last his turn came, he had some difficulty in making the man understand the name of the station he wanted to go to. The people in the queue behind him began to grumble impatiently at the delay. However, he got the right ticket in the end and, by asking several people the way, he also found the right platform. This was packed tight with people. He did not manage to get on the first train, but he was able to move nearer the edge of the platform so as to be in a better position to get on the next one. When this came in, emerging from the tunnel with a terrifying roar, Tom was swept forward on to the train by the rush of people from behind. The doors closed and the train moved off before he was able to get his breath back. He was unable to see the names of the stations where the train stopped, but he had taken the precaution of counting the number of stops so that he knew exactly where to get off. His station was the sixth along the line.

When the train reached the sixth station, Tom got off, feeling relieved that his journey had been so easy. But he was alarmed to see that he had got off at a station that he had never heard of! He did not know what to do. He explained his difficulty to a man who was standing on the platform. With a look of amusement on his face the man told Tom that he had travelled on a train going in the wrong direction.
