There are things I want to be,

Or no, a scientist.

I'd love to be a paleontologist,  
Digging up dinosaur bones.  
But no, I've changed my mind,  
what if the dinosaur came alive !

I don't want to be a banker,  
I don't want to be a baker,  
Or a sailor out at sea.

I would not mind being a teacher,  
A gardener or farmer.  
A house wife would not be bad,  
or even a lawyer.

A journalist perhaps,  
Reporting from faraway places.  
But I just can't seem to decide,  
And "that's normal", I am told.

### The Kingfisher

You must go to the rivers or lakes, canals, or big ponds, if you want to see this gorgeously coloured bird.

The kingfisher lives almost entirely on fish, which it catches by diving into the water, seizing the fish in its beak by the middle as it swims by. The bird then throws the fish into the air and catches it again to swallow it head first.

The nest is usually at the end of a tunnel about three feet long, made in a hole in a bank. The kingfisher makes the tunnel itself and then lines its nest with fishbones, which smell dreadfully.
